“Prior to creating GrowPath, I ran one of the largest and most powerful plaintiffs’ firms in the Southeast (200 attorneys and staff, 14 locations), and provided consulting services for several other firms.

We couldn’t find a tool that could do everything we wanted, so I built one, taking what I know about software and combining it with nearly 20 years of knowledge on how to efficiently run a plaintiffs’ firm.

The tool that resulted was so powerful and revolutionary that the firms I consult for also wanted it. That’s how GrowPath was born.”

— Eric Sanchez, GrowPath Founder
