Streamlined Operations.

GrowPath users have reported a 5-10% increase in productivity per user within the first year.

Minutes saved turn into hours, and those hours turn into cost savings for your firm.

Communicate efficiently

Call, text, and email clients directly from the case record. Responses are auto-added to the notes.

Say goodbye to copy & paste

Generate merge documents in one click, and directly import client information via form.

Store documents in case record

Just drag and drop. It's that easy. You can even email attachments into case file storage.

See everything at a glance

Customizable case headers allow you to see what's important to you, at a glance, every time.

Quicker resolutions.

GrowPath's dashboards and custom reports allow you to identify bottlenecks and manage more effectively.

And pressing tasks are delivered directly to users home screens.

“ I manage 8 attorneys and 1000 cases at any given time.

In our first year of using Casee by GrowPath, we shortened our average case time by 3 weeks.

That translated into hundreds of thousands of dollars in extra revenue.”
